CAPE COD

## LOUNGE

Rosewest®  
construction navale

## With a reduced crew

The Cape Cod 767 LOUNGE is built for solo or reduced-crew sailing. The large cockpit with its ergonomic design allows for smooth and safe movement on board.

## Mooring

The generously-sized cockpit, comfortable seating benches and the telescopic table invite you to precious convivial moments. Later on, the generous front sundeck and its lounger position will induce you to heavenly naps. The two berths in the cabin will enable you to stay overnight and enjoy a magical lie .

## In a regatta

A sporty boat to sail alone or with a crew. Invite your guests on board for a pleasure ride or at the wire trapeze. The **Cape Cod 767 LOUNGE** offers a new form of elegance and style as a day-boat or a weekender. It delivers real performance whilst maintaining a good level of unrivalled comfort.

## Amongst friends and family

The keel centreboard (swivel drift) will allow you to explore places inaccessible to larger sailboats. Thanks to its very low draught – 22 cm (0.72 ft) and its integrated bathing ladder, you can easily beach on dry land.

# Specifications
